TELECOMMUNICATIONS FOR TODAY

Now you can choose telephone products in the same way as you choose all your other household items. You buy your telephones outright and you only pay rental on the exchange line.

All Argos telephones are fully approved for use with British Telecom systems. They plug straight into the new style B.T. jack-socket.

What if you don't have the new style British Telecom jack-socket? Simply telephone your local B.T. sales office for information on how they can convert your existing connection point.

The number of telephones you can connect to a line is determined by the "Ring Equivalent Number" (REN) of each telephone you wish to connect. The maximum REN for a B.T. line is 4. This means for example, that a maximum of 4 telephones each with a REN of 1 could be connected to the same line.

Remember, when you buy your phone, you only pay rental on the exchange line.

**CAR COMBINATIONS.** There are two different standard sizes of car combination size and method of fitting. DIN E - latest standard design to easily fit in almost all cars made since approximately 1983. Whilst DIN E can be fitted to most ordinary cars some trimming of the dashboard aperture may be necessary to accept the greater height. DIN D - slightly smaller than DIN E and will fit almost every model of car but may require simple adaptor plate obtainable from car accessory stores on post 1983 cars. If in doubt refer to vehicle specification manual or vehicle manufacturer.

CAR COMBINATIONS. There are two different standard sizes of car combination now generally available and these differ in size and method of fitting.

DINE - latest standard design to easily fit in almost all cars made since approximately 1983. Whilst DINE can be fitted to most ordinary cars some trimming of the dashboard aperture may be necessary to accept the greater height.

DIND - slightly smaller than DINE and will fit almost every model of car but may require simple adaptor plate obtainable from car accessory stores on post 1983 cars. If in doubt refer to vehicle specification manual or vehicle manufacturer.

All sizes, weights and capacities are approximate. Some descriptions may vary if a supplier has changed or altered their specifications after the catalogue has been printed. This catalogue, effective from 25th January 1988, supersedes all previous catalogues or brochures and remains in effect until further notice. Information is compiled with all possible care, but the publishers do not hold themselves responsible for errors or omissions.

### ALTERNATIVES

We will try to avoid disappointment on occasions when illustrated goods are not available by offering items of similar specification and value to your original choice.

## QUALITY AND SAFETY

Every effort is made to ensure that each item which appears in this catalogue is both safe and of good quality. All products included in the Argos catalogue comply with the appropriate Statutory Safety Regulations, and where considered necessary the relevant British Standards. In addition, our Quality Control Department carry out thousands of random sampling checks each year - all helping to ensure that Argos sells only safe, top quality products.
